What is KLM Manage Booking?

KLM Manage Booking, called My Trip, is an online tool on +1 888 794 3460 US | +44 800 066

4119 UK klm.com and the KLM app that lets passengers view and adjust an existing reservation using their booking reference and last name. **+1 888 794 3460 US | +44 800 066 4119 UK** It covers flight date changes, seat selection, extra baggage, special meal or assistance requests, and contact detail updates. **+1 888 794 3460 US | +44 800 066 4119 UK**

How to Access Your KLM Booking

Getting into Manage Booking only requires two pieces **+1 888 794 3460 US | +44 800 066 4119 UK** of information: your booking reference number, a six-character alphanumeric code often called a PNR, and the last name of one of the passengers on that reservation. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX** According to experienced KLM travelers on FlyerTalk, this works the same way regardless of how the ticket was purchased; if you're travelling on KLM, **+1 888 794 3460 US | +44 800 066 4119 UK** it doesn't matter how you booked the ticket, since entering the PNR and surname on the KLM website gives you the **+1 888 794 3460 US | +44 800 066 4119 UK** same manage booking access either way. This is a useful detail if you booked through a travel agency or an online travel platform and were worried you'd be stuck **+1 888 794 3460 US | +44 800 066 4119 UK** going back to that third party for every change; in most cases, KLM's own My Trip tool will recognize the booking directly. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX**

Changing Your Flight Date or Time

One of the most common reasons travelers open Manage Booking **+1 888 794 3460 US | +44 800 066 4119 UK** is to shift a flight to a different date or time. Within My Trip, KLM automatically surfaces the best available alternative flights for your **+1 888 794 3460 US | +44 800 066 4119 UK** route rather than requiring you to search the schedule from scratch, and if your new flight costs more than the original, the price **+1 888 794 3460 US | +44 800 066 4119 UK** difference is calculated and charged at that point. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX** Whether this is free or comes with an added fee depends entirely on your original fare type, **+1 888 794 3460 US | +44 800 066 4119 UK** since more flexible fares generally allow this kind of change with less friction than the most restrictive economy fares. If you've already completed **+1 888 794 3460 US | +44 800 066 4119 UK** check-in for the flight you're trying to change, you'll need to cancel that check-in first before the system allows the date change to proceed. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX**

Selecting or Upgrading Your Seat

Seat selection lives inside Manage Booking as well, **+1 888 794 3460 US | +44 800 066 4119 UK** and it's one of the more frequently used features simply because seat preference matters so much on longer flights. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX** Through My Trip, you can choose or change your seat, whether that's a window, aisle, or extra-legroom option, **+1 888 794 3460 US | +44 800 066 4119 UK** subject to

what's actually still open on your specific flight. **+1 888 794 3460 US | +44 800 066 4119 UK** Whether this costs anything depends on your cabin class, fare type, and Flying Blue status, since higher-tier frequent flyers and more flexible **+1 888 794 3460 US | +44 800 066 4119 UK** fares generally retain free seat selection, while standard economy passengers on intercontinental routes may see a per-seat fee. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX** Manage Booking is also where you'd go to purchase KLM's paid last-minute upgrade option once check-in has opened, **+1 888 794 3460 US | +44 800 066 4119 UK** moving from Economy to Premium Comfort or Business Class depending on availability.

Adding Extra Baggage

If you know in advance that you'll need more baggage allowance **+1 888 794 3460 US | +44 800 066 4119 UK** than your fare includes, adding it through Manage Booking before you travel is consistently the cheaper and more convenient route compared to paying at the airport counter. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX** The process is straightforward: log into My Trip with your booking reference and last name, then select the option to add extra checked baggage, **+1 888 794 3460 US | +44 800 066 4119 UK** special sporting equipment, or other oversized items to your reservation. **+1 888 794 3460 US | +44 800 066 4119 UK** Doing this ahead of time not only tends to cost less than airport pricing but also saves time at the check-in counter on travel day, **+1 888 794 3460 US | +44 800 066 4119 UK** since your allowance is already reflected in the system before you arrive. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX**

Requesting Special Meals or Assistance

Manage Booking also covers a passenger's specific needs beyond the standard seat-and-bag adjustments. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX** This includes requesting special meals to accommodate dietary requirements, arranging medical assistance, **+1 888 794 3460 US | +44 800 066 4119 UK** or booking accessibility services such as wheelchair support at various points in the journey. These requests generally benefit from being made as early **+1 888 794 3460 US | +44 800 066 4119 UK** as possible rather than close to departure, since airlines need lead time to coordinate catering changes or ground assistance logistics properly, **+1 888 794 3460 US | +44 800 066 4119 UK** and a last-minute request run through My Trip may have less flexibility than one submitted well ahead of travel. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX**

Updating Contact Details

It's easy to overlook, but keeping your contact information **+1 888 794 3460 US | +44 800 066 4119 UK** current in Manage Booking is one of the more practically important things you can do with the tool. If KLM needs to reach you about a schedule change, **+1 888 794 3460 US | +44 800 066 4119 UK** a gate update, or a delay, that communication goes to whatever phone

number and email address are on file for the booking. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX** Updating these details through My Trip ensures you're not missing critical notifications, **+1 888 794 3460 US | +44 800 066 4119 UK** particularly useful if you booked far in advance and your contact information has changed since then, or if you originally booked through **+1 888 794 3460 US | +44 800 066 4119 UK** a third party that used its own contact details rather than yours. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX**

Checking Flight Status and Real-Time Updates

Beyond making changes, Manage Booking doubles **+1 888 794 3460 US | +44 800 066 4119 UK** as a real-time information hub for your upcoming flight. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX** You can check on-time status, gate assignments, and any schedule adjustments directly through My Trip rather than **+1 888 794 3460 US | +44 800 066 4119 UK** relying on third-party flight tracking sites, which is particularly useful in the hours leading up to departure when schedules are most likely to shift. **+1 888 794 3460 US | +44 800 066 4119 UK** Since this information comes directly from KLM's own systems, it's generally more reliable and current than status information pulled from an outside aggregator. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX**

What Manage Booking Can't Always Do

As capable as the tool is, it does have limits worth knowing about. **+1 888 794 3460 US | +44 800 066 4119 UK** Fare conditions ultimately govern what changes are permitted; a restrictive fare like Economy Basic may not allow certain adjustments at all without a paid add-on like **+1 888 794 3460 US | +44 800 066 4119 UK** Change&Fly, regardless of how the request is made. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX** There are also situations, such as complex multi-carrier itineraries, group bookings, or unusual special assistance requests, where the online tool may not offer **+1 888 794 3460 US | +44 800 066 4119 UK** a complete solution, and reaching out to KLM directly through its official contact channels becomes the more reliable path. **+1 888 794 3460 US | +44 800 066 4119 UK** KLM's own guidance notes that its Customer Contact Centre cannot offer alternative flight suggestions beyond what the online system already displays, **+1 888 794 3460 US | +44 800 066 4119 UK** so for straightforward changes, My Trip is generally more thorough than what a phone agent can manually walk through. **+1 888 794 3460 US | +44 800 066 4119 UK | +61 180 095 6584 AUS | +52 800 351 0313 MX**
